Message From the President

Dear Omaha Post Members,

I hope your holidays were relaxing, and included enjoyable time with family and friends.

Before we close the books on 2013, let’s celebrate our Post’s successes.

In 2013 alone,

- Our Student Mentoring Program hit a milestone - 20 years of service to youth in our community.
- Our Industry Day was a huge success, attracting 325 attendees.
- Our membership included 100 Sustaining Member firms, as well as more than 500 individual members!

Thank you for your tremendous efforts!

Now that the holidays are over, the new calendar year presents a great opportunity for all of us to look ahead and consider ways to improve our personal and professional lives. Whether you make New Year’s resolutions or not, now is a good time to set some new goals. Setting goals is just the first step and it should be followed closely by figuring out how to achieve them. Achieving the goals is not always a simple task. The good news is there’s no need to look very far—your Omaha Post membership provides many opportunities to reach some goals for professional and personal growth and enrichment.

If you want to expand your professional network your Post membership makes it easy. Mark your calendar and plan to attend our monthly luncheons. It’s a great opportunity to establish connections and share ideas with other professional engineers. Another way is to consider volunteering as a Post officer, a committee member, or to help with Industry Day 2014, or our student mentoring program.

If you want to stay on top of emerging trends in the industry attend our monthly luncheons which feature educational programs. You’ll learn about the latest developments in our military, federal and private sector communities of practice.

Are you looking for additional ways to earn required professional development hours? One easy way is to attend our monthly lunches, but did you know you can also earn PDHs by becoming a student mentor for students at our local schools? It’s also a great way to give back to the engineering profession by inspiring students to seek careers in engineering.

We have a wealth of tremendous experience and professionalism among our members and I encourage us to share that broad knowledge base with other members. As we celebrate the New Year, I ask you to consider submitting an article for publication in the Military Engineer (TME) or other professional magazines or journals. Also, don’t keep your SAME membership a secret. Invite your colleagues to one of our monthly membership meetings.

Have a wonderful 2014, and thanks again for all you do!

COL Joel Cross
Omaha Post President
save the date!

Engineers Roundtable E-Week Banquet
Thursday, February 20, 2014
Strategic Air & Space Museum
28210 West Park Highway
Ashland, NE 68003

TIM FITZPATRICK  720-383-4551
Doug Plack Memorial Scholarship Applications Due on April 1st

The Doug Plack Memorial Scholarship is also open for applicants this year. In appreciation of his many years of volunteer assistance to the organization, the Omaha Post established the Doug Plack Memorial Scholarship. The scholarship has been established in perpetuity and will provide education and training funds for a member of the Society, or for someone in their family.

The goal of the Plack Scholarship is to raise a base of $20,000, from which the annual interest (approximately $2,000) will be given to one student per year. The first recipients of the scholarship were Doug’s children, Adam and Whitney, who have now graduated.

Applications for the Doug Plack Memorial Scholarship can be located at h ttp://www.sameomaha.org/Omaha_Post_Site/Committees_Doug_Plack_Scholarship.html and are due on April 1st. If you have additional questions, please contact Natasha at 402.290.8457 or natasha.hartley@woolpert.com.

Congratulations to our New Fellows!

Omaha Post members John Remus and Mary Erwin were both accepted into the Academy of Fellows by the Society of American Military Engineers’ National Board of Direction at its Fall meeting on November 22, 2013. Both will be formally inducted at SAME’s annual investiture Ceremony scheduled for March 26, 2014 in Bethesda, Maryland.

Omaha Post members John Remus and Mary Erwin were both accepted into the Academy of Fellows by the Society of American Military Engineers’ National Board of Direction at its Fall meeting on November 22, 2013. Both will be formally inducted at SAME’s annual investiture Ceremony scheduled for March 26, 2014 in Bethesda, Maryland.
SAME Scholarship Applications Due February 1st (renewals) and March 1st (new applicants)
The Omaha SAME Post’s Scholarship is a renewable scholarship for a maximum of $8,000 over 5 years for one High School senior participating in the Omaha Post’s Student Mentoring Program (SMP) or similar school sponsored engineering/architectural activities. The scholarship starts out as a $1,000 a year scholarship for the freshman and sophomore years and increases to a $2,000 a year scholarship for the junior, senior, and 5th year if necessary. In order to have the scholarship renewed applicants need to:

- Maintain a 3.0 GPA
- Continue in an engineering/architectural program or a related field of study
- Are encouraged to participate in the SAME chapter at their university or college
- Have contact with their SAME Fellow mentor.

New SMP Scholarship applications are due on March 1st. Renewals are due on February 1st. Applications are located at http://www.sameomaha.org/Omaha_Post_Site/Committees_Scholarships.html.

SAME Summer Engineering Camp Applications Due March 15th
SAME Omaha Post is now accepting applications for SAME Summer Engineering Camps. The engineering camps are designed for High School students who excel in math, science and technical courses and are interested in pursuing engineering in college. These one-week camps are high energy, hands-on events for students from across the country and around the world. The camps are led by a professional staff of engineers from both private industry and the military services. There are two camps this year:

- U.S. Army Camp - Vicksburg, MI - June 22-28, 2014

Applications for these camps are due to the Omaha Post by March 15th, 2013.

The Omaha Post will select our top applicants and submit their names to our National organization for final selection. The Omaha Post can sponsor up to two campers. In sponsoring our selected campers, the Omaha Post will pay the camp registration fee ($550) and the camper is responsible for paying for transportation to the camp. Information on the camps can be found at http://www.sameomaha.org/Omaha_Post_Site/Committees_Scholarships.html. Applications should be submitted to Natasha Hartley, 2324 North 55th Street, Omaha, NE 68104, or natasha.hartley@woolpert.com.
The Fifth Annual Omaha Post Holiday and Awards Event was held on Thursday, December 12, 2013 at the Field Club of Omaha. This year’s luncheon group of approximately fifty members and guests gathered to honor and recognize the achievements of their own and celebrate the holiday season.

COL Joel Cross, Omaha Post President, opened the event and introduced Dave Packard, Director for Awards and Recognition, who presented the program, announced 2013 award winners and National award nominees, and described all award and scholarship opportunities.

Morgan Sykes, Membership Committee Chair, Leo A. Daly Company, presented pins to members who had attained significant milestones in their membership in the Society. Twelve members were recognized for 25 years of membership, including: Gary Eddy, P.E.; C. Dale Jacobson, P.E.; John Remus II, P.E.; Ronald Hughbanks, FSAME; COL Robert Ruch, USA; Ed Conrath, P.E.; Ronald Geary, P.E.; W.L. Larry Jacobsen, FSAME; LTC Gary Krupa, P.E., USA; John LaRandeau; Clifford Thompson; and John Whisler, Jr., P.E., USA. In addition, two members were recognized for 50 years of membership, including COL Ferd Anderson, Jr. P.E., USA and Charles Johnson, P.E.

The Society and Omaha Post appreciate the dedication and support of long-term members.

We took a moment to recognize scholarships and awards presented during the past year, including:

Scholarships awarded:

- Freshman SMP ($1,000), Seamus Mulcahy, Creighton Prep High School
- Sophomore SMP ($1,000), David Johansen, UNL (Civ Eng)
- Junior SMP ($2,000), Adam Crnkovich, MCC (Pre-Engineering)
- Senior SMP ($2,000), Meagan Kurmel, UNO (Arch Eng)
- Upperclassman Scholarship ($2,000), Luke Ritz, UNO (Civ Eng)
- Doug Plack Memorial Scholarship ($2,000), Emily Sumner, SDSU (Civ Eng)

Doug Plack Golden Eagle Award:

- Jim Wathen, P.E., EA Engineering

Omaha Post President’s Awards:

- Gladys Doerr
- Christie Murray, URS Corporation

The Omaha Post Public Sector Partnering Award was created in 2009 by (then) Omaha Post President Mary Erwin for an individual employed in the public sector who has made significant contributions to both his/her job and to the Omaha Post over the past year. This award is intended to demonstrate one of the key SAME Values, “Public Service: Recognize the critical contribution that public servants make in supporting the economic and environmental needs of the nation.”

The 2013 recipient of the Omaha Post Public Sector Partnering Award is Hubert J. Carter, Jr., U.S. Army Corps of Engineers, Omaha District. Hubert is the Small and Disadvantaged Business Utilization representative who has served as a liaison between USACE and the small business community. He participates actively in the Omaha Post and promotes the use of small business in Government contracts. He works to develop strong relationships with private sector Sustaining Members, especially during the Omaha Post’s annual Industry Day. Hubert’s actions are exemplary of the SAME Mission, “To promote and facilitate engineering support for national security by developing and enhancing relationships and competencies among uniformed services, public- and private-sector engineers and related professionals, and by developing future engineers through outreach and mentoring.” Congratulations Hubert and thanks for your support to the society and the Architect-Engineer community!

The Omaha Post celebrated the 20th year of the Student Mentoring Program (SMP) with special emphasis on the contributions of those whose efforts make the program such a success, providing a model that is the envy of other SAME Posts worldwide. The actions of mentors, teachers, sustaining members, and SMP leaders are also exemplary of the SAME Mission, “To promote and facilitate engineering support for national security by developing and enhancing relationships and competencies among uniformed services, public- and private-sector engineers and related professionals, and by developing future engineers through outreach and mentoring.”

Continued on page 6...
Of course, the focus in this case is on the last item, but the program would not succeed without the healthy relationship that exists among SAME’s members.

SAME teachers were asked to identify mentors who had exceeded expectations within the program. These are mentors who have gone far beyond the mission they were asked to serve, providing long-term commitments and sharing their professional experience selflessly, to students and fellow professionals, as SAME invests in future design professionals. Some of these mentors are actually the product of the program!

**Ryan Curtis, Leo A. Daly Company**, has been a mentor for Omaha Central High School for several consecutive years. He shares his knowledge of costs, codes, and sustainability and encourages team members to reach beyond themselves, creating a stronger team in the process. He knows the right questions to ask, moving the team toward innovative design solutions and he has arranged field trips and office tours that inspire the team through demonstration of applied design principles.

**Mike Baldino, P.E. Emeritus, FSAME, Baldino Enterprises, LLC** is a mentor at Bryan Middle School, where he is recognized for the extraordinary efforts he makes for his team. He is recognized as a Founder of the Student Mentoring Program, he has participated as a judge, and sits on the SMP Advisory Committee. His leadership and vision resulted in the development of a strong mentoring alliance between those in engineering and architecture professions and Omaha area middle and high schools, which has continued to mature over the past 20 years. Congratulations to Mike Baldino and thank you for your continued commitment to a great program!

**J. R. Cooper, Spiral Solutions and Technologies, Inc.**, is a mentor for North High school and was recognized for his ability to develop team skills, striving to improve communications among team members, presentation skills, and a sense of professionalism. J. R. is noted for spending time with individual students and is a stand-out among the many mentors that have served the North High School community.

Chris Langan, Lamp Rynearson & Associates, has been a mentor at Mount Michael Benedictine School for many years. He has mentored 8 teams at Mount Michael since 2009, taking an award each time they participated! Chris is also a teambuilding instructor for the annual SMP Workshop and participates in SMP wherever needed. He is a great asset to the program and is deserving of this expression of appreciation.

**John Donovan, Jim Kollbaum, and John Harpham, URS**, are the “Three Amigos” at Skutt Catholic High School. They are a dedicated and committed team who never miss a weekly SMP meeting. They arrange field trips and speakers and share personal experience and PIZZA! They are recognized as “tremendous ambassadors for the engineering profession” and are “excellent role models” who coach, advise, counsel, and mentor. As a result, their teams have performed well and taken home many SMP awards. The Omaha Post is proud of this team and grateful for their support of SMP.

**Kyle Vohl, E&A Consulting**, is a long-term mentor at St. Pius X/St. Leo. Kyle is a product of SMP himself, having participated as a young student and now as a mentor, and is the “go to” guy for answers to tough questions and encouragement. If you have met Kyle, you know he has a lot of positive energy and has demonstrated commitment to the program and the profession. Thanks Kyle!

**Patrick Prososki, Union Pacific Railroad**, is a mentor at Omaha Central High School. Patrick has mentored 9 teams since 2003 (Norris, Abraham Lincoln, McMillan, and Central) and, when he recently returned to the Omaha area, rejoined the mentoring program. THAT is a great testimonial to the benefits of mentorship... thanks for coming back, Patrick!

The Omaha Post also wishes to express appreciation to the sustaining member firms that support SMP by sharing their treasured resources, providing office visits and encouragement, and even providing cash sponsorships as an incentive to teams. The top ten firms include BCDM, DLR Group, HGM Associates, Inc., URS Corporation, Schemmer Associates, Leo A. Daly, Olsson Associates, the U.S. Army Corps of Engineers, HDR, Inc. and the Kiewit Building Group.

Continued on page 7...
Among SMP teachers, **Steve Hamersky, Gross Catholic High School**, is a standout! Steve has been involved as a SMP teacher for 18 years. He has led 17 of 20 teams to award-winning presentations in the program. Steve is a key member of the SMP Steering Committee and was a primary contributor to the development of meaningful rubrics used to guide the teams to relevant products. He is a SMP Workshop instructor with emphasis on Technical Writing. Steve Hamersky is a STRONG SMP supporter, a model participant, and an all-around GOOD GUY! Please congratulate Steve and thank him for his contributions the next time you see him.

The Student Mentoring Program is recognized the significance of the contributions made by two key leaders in the program, **Gail Frame, Omaha Post SMP Administrator**, and **Anne Peterson, HDR, Omaha Post Vice President for Student Mentoring**. The Post is grateful for the professionalism and great teamwork represented by these two individuals. They continue to develop and improve a 20 year old program which has touched the lives of literally thousands of students, parents, teachers, and mentors. The program would not exist without the generous efforts of Gail and Anne. Thanks so much for all you do!

The program concluded with the recognition of National SAME Award recipients and nominations.

**Mary Erwin, HDR, and John Remus II, P.E.**, were recognized as the two newest inductees into the SAME Academy of Fellows. Mary and John will participate in an Investiture Ceremony at the annual Golden Eagle Awards Dinner scheduled for March 26, 2014 in Bethesda, Maryland. Congratulations to these deserving new SAME Fellows.

Three nominees will be forwarded for consideration of National Awards.

**Bruce A. McCauley, R.A.** has been nominated for the *Urbahn Medal*, given to an individual who has demonstrated preeminence in the field of architecture. Bruce is an architect, employed by the U.S. Air Force at Offutt AFB who has demonstrated superb leadership skills and mission commitment despite continued funding and personnel shortfalls. His extraordinary execution of a large operational and maintenance program and demonstrated organizational expertise has earned him a reputation as a “tireless leader”. His nomination will be forwarded to SAME National in February and we wish him the very best!

**Jessica Branigan** is a Graduate Student in Civil Engineering at the University of Nebraska – Omaha. She is an emerging leader who has played a key role in the re-establishment of the UNO SAME Student Chapter. Jessica is also employed as a student intern at the U.S. Army Corps of Engineers, Omaha District. She will be nominated for the *Student Leadership Medal* and we wish her the very best and thank her for her loyal service to the Omaha Post.

**Leo A. Daly Company** will self-nominate for the *Seymour S. Greenfield Sustaining Member Award – Medium Company*. The company was founded in 1915 and has been a sustaining member firm longer than any other, having been a member of the Omaha Post since 1958! They provide services in planning, architecture, engineering, and interior design with 800+ employees in 30 offices worldwide. Leo A. Daly has nearly single-handedly transformed the Omaha skyline with projects like the First National Tower, the Woodmen Tower, the Twin Towers, and the Northwestern Bell building. Best of luck to Leo A. Daly Company in this category.

Nominees were encouraged to complete the nomination process and were offered support, if needed, from Omaha Post leadership. All nominations will be forwarded to National at the appropriate time (early February 2014) for consideration at that level. Congratulations and best of luck to ALL!

We continue to receive many positive comments on this event and we look forward to a similar event next December. If you have suggestions or comments, please provide them to Dave Packard at (402) 996-3822 or david.a.packard@usace.army.mil.
Student Mentoring Program

By: Gail Frame

SMP is experiencing a record-breaking year with many schools returning to the program after a long hiatus. We are excited to welcome back Thomas Jefferson High, Millard West High, Roncalli High School, Papillion Jr. High and St. Columbkille Middle School. While we typically average somewhere around 27 teams in competition, this year we will be hosting 37 teams at the Scott Conference Center on April 3, 2014. Special plans are in the works to celebrate this 20th Anniversary of the program.

In October, we hosted our annual Workshop with over 60 students attending sessions on model building, presentation skills, team building, SketchUp, REVIT and sustainability. This event is intended to provide students with the information and skill-building they need to develop and present their projects at the Competition. The Workshop also gives these students an opportunity to tour the facilities at PKI.

We are still seeking back-up mentors for the following schools:

• King Science Center #1 - designing an aquaponics tank. Team meets every other day, 12:30-2:00
• King Science Center #2 - designing a biodiversity addition to their school. Team meets twice each week 2:00-2:40, but can also meet after school
• Marrs Magnet Center - developing a means for shorter people and those in wheelchairs to reach desired items.
• Papillion Jr. High #1 - renovating the Papillion City Park. Team meets Tuesdays, 3:00-4:00
• Papillion Jr. High #2 - developing a local food bank. Team meets Tuesdays, 3:00-4:00

Please consider how you might help these kids develop their interest in engineering, architecture and related sciences. As we’ve been told by previous mentors, this is a great way to work on creative projects that you might never see come across your desk! ☺️

Mentors are needed for the Student Mentoring Program. Go to http://www.sameomaha.org to find out how you can get involved!

STUDENT LUNCHES AT THE COMPETITION WILL BE COVERED BY SAME!

Teachers and Mentors;

Even though these are difficult financial times for all of us, SAME has made significant changes to the way they support SMP:

• The Post President’s Awards and the scholarship were increased by 50%
• Awards of Distinction were doubled
• Teacher and mentor lunches are both covered at the Competition

Now, they’ve gone one step further - student lunches at the Competition will be covered by SAME! Lunch at the Scott Conference Center has perennially been a memorable part of participating in SMP and now every student can enjoy the all-you-can-eat buffet regardless of their ability to pay.

Happy Holidays!

Responses to the announcement include the comments below:

• WOW!! Christmas early....................thanks from my always hungry guys.
• Wonderful news! The kids love to eat there!!! OK, teachers too.
• Congratulations! This is fantastic news!
• What!! How fantastic! ;)
• Yeal!!! Send our sincere appreciation to whoever made that decision!

Many of these teachers were paying for lunches out of their own pocket and other teams skipped enjoying lunch at the Scott Conference Center because some team members could only afford the subsidized lunch at school. This is yet another example of how SAME cares about the program and the students in it.
Project Santa Drive-Thru

*By: Mary Erwin*

On Saturday, December 21, members of the Omaha Post and their families volunteered at the Omaha Open Door Mission’s Project Santa Drive-Thru. This annual event assists the under-privileged in the area by providing not only some basic necessities such as food and diapers, but also toys to the children.

Volunteers gave up five hours of their time on the Saturday prior to Christmas to assist by doing various jobs such as pulling orders, running packages to cars and handing out food and diapers. In addition to these necessities, more than 6,000 bags of toys were given out for children in their specific age range whom would not have had any Christmas otherwise. Everyone who participated really enjoyed the day and are already talking about next year! Hope you can join us!

A big thank you to everyone who participated including:

Cybil Boss  
Gail Frame  
Anne Peterson  
Chris Langan  
John Remus  
Jack Remus  
Jim Wathen  
Marie Wathen  
Meagan Kurmel  
Matthew Gibbs  
Deborah Hills  
Richard Hills  
Abbie Hills  
Jeanne LeBron  
Roche LeBron  
Mary Erwin

Did you know:

- Studies indicate that 40 percent of homeless men have served in the armed forces, compared to 34 percent in the general population.
- The National Coalition for Homeless Veterans estimates that on any given night 271,000 veterans are homeless in the United States.
- Approximately 20,000 people are homeless in Nebraska every night.
- Approximately 2,000 people are homeless in Omaha every night.
- The average age of a homeless person is 9 years old.
- More than 3.5 million people are homeless every night, and 1.35 million are children.
- More than 30 percent of homeless families have an open case for child abuse or neglect.
- Of the 31.1 million people living in poverty, more than 12 million are children.
- Families with children represent 23 percent of the homeless.
- Nationally, about 50 percent of all homeless women and children are fleeing domestic violence.
- About 16 percent of adult homeless people suffer from severe and persistent mental illness.
- It is estimated that 30 percent of homeless single adults suffer from substance abuse and addiction.
- Up to 25 percent of the urban homeless population is employed.

Statistics provided by the Open Door Mission.

HDR Supports Wounded Warriors at SAME Small Business Conference

By: Mary Zgoda

HDR was a proud sponsor of the recent Society of Military Engineers National Small Business Conference held recently in Kansas City. In support of the Wounded Warrior Initiative, when the local post offered exhibitors the opportunity to host a soldier from nearby Fort Riley, HDR’s Jackie Hacker, director of HDR’s Small Business Program, snatched up the opportunity.

“It is HDR’s culture that we are honored to support our soldiers, giving back, for all that they have sacrificed for our freedom. This was a great venue to introduce them to our A&E community, provide encouragement that they have an industry of advocates to support their continued education, professional development and job search, and, importantly building relationships,” said Hacker.

“They aren’t coming home alone. We are happy to embrace our military and to say thank you. Our industry is going to gain strong engineers and leaders who have already proven their dedication, integrity and level of competency. HDR will do this again at next year’s Small Business Conference,” she said.

In 2011, the SAME Board of Direction established the Wounded Warrior Initiative to develop a strategy to support wounded warriors and families of fallen warriors. The program focuses on efforts to help wounded warriors through rehabilitation and their transition to the civilian workforce: mentoring, job transition and education assistance; rehabilitation and support programs.

As an element of the SAME Greater Kansas City Post Wounded Warrior Initiative, the Post’s Sustaining Members sponsored 13 wounded soldiers who were interested in sharpening their networking and job search skills. HDR sponsored Master Sergeant Travis Belmont, U.S. Army, who was appreciative of the opportunity to attend the conference.

According to Belmont, “The benefits of attending the SAME Small Business Conference was that I got a chance to meet business professionals who were ready to assist soldiers who are transitioning from the military. All the HDR associates were
Bay West, Inc. Hires Munitions Specialist / Project Engineer Gretchen Tabano, PE, PMP

Bay West, Inc., an environmental and industrial services company, recently hired Gretchen Tabano as a project engineer who will support Bay West’s munitions investigation and remediation program. She brings more than 17 years of experience working on hazardous, toxic, wastes (HTW) and military munitions response program (MMRP) sites under CERCLA and RCRA around the country.

Ms. Tabano is a Professional Engineer and Project Management Professional specializing in munitions investigation, and has been cited for outstanding performance at a munitions site by USACE - Baltimore District, USACE - Omaha District, and USAESCH. Ms. Tabano will be supporting Bay West from her Baltimore, MD project office.
job opportunities

SAME Sustaining Members are welcome to submit job opportunity advertisements for inclusion in the SAME Omaha Post quarterly newsletter. We require that your advertisement not exceed business card size and that you submit it in the form of an image (jpg, tif, etc.) or pdf. Please e-mail your advertisement to gina.raven@hdrinc.com.

2014 Newsletter Advertising

Interested in advertising in the Omaha Post Newsletter? We publish four newsletters annually (spring, summer, fall, and winter) and distribute it electronically to more than 400 individuals. Instructions for submitting your ad for 2014:

1. Complete the form below and return it to Mike Cameron e-mail.
2. Send a copy of this form along with your payment to the address noted below.
3. Send your ad via e-mail to Mike Cameron. Ads and payment must be received no later than February 28, 2014 in order to make it into our spring issue.

Please indicate the size of ad you will be submitting and amount of your check.
